

Applications:

A combination pressure gauge and diaphragm seal forming one unique instrument that used for low pressure corrosive media where diaphragm seal protection is needed. Process where low or high temperature will affect seal fill fluid.

Specifications:

■ Dial	4" (100mm), 6" (150mm)
■ Case	AISI 304 Stainless Steel
■ Diaphragm	AISI 316 stainless Steel Diaphragm and Socket
■ Filling	Food Grade Glycerin Filled
■ Internal	Stainless Steel
■ Connection	1/2" or 1/4" NPT Stainless Steel, Welded
■ Range	0-10" water/oz ... 0-15psi/kpa ... 0/300psi/kpa
■ Accuracy	Lower pressure 1.5%, pressure 1.0%
