

Applications:

Body material can be brass, SS304 and SS316, adjustable system are SS316. Prolongs the life of pressure instruments by reduce the damage effects of pulsation. Can be utilized to change the amount of restriction. Used in pumps, compressors, hydraulic presses or fluid power applications

Specifications:

	Adjustable Pressure Snubber	
■ Body	Stainless Steel 304, 316 or Brass	
■ Adjustable System	Stainless Steel 316	
■ Connection	1/4" or 1/2" NPT, Male x Female	
■ Temperature Rating	-30C to 200C
