

Applications:

Piston snubber are supplied with three different pistons to use with a variety of media. Pressure gauge piston snubber will considerably increase the service life of pressure gauge in harsh application such as on reciprocating pumps and compressors, hydraulic pressure or fluid power systems and will additionally improve the reading accuracy of the gauge.

Specifications:

■ Body	Brass, SS304 and SS316
■ connection	1/8"~1/4"~1/2" NPT, BSP or required threads size and type.
■ Temperature Rating	14F to 248F (-10C to 120C)

	A	B
1/4"NPT	$\frac{3}{16}$ "	0.74" ±0.25
1/2"NPT	$\frac{3}{8}$ "	1.095" ±0.25
